

OFFICE OF EDUCATION
PRINCIPALITY OF LIECHTENSTEIN

Vaduz 3 November 2020 – AK/RM/ij-4253

Dear Parents,

As a result of the COVID 19 pandemic, our country is currently facing considerable challenges in all areas of public and private life, and these also entail restrictions for everyone. Within this context, the Office of Education is being called upon, on the one hand, to continue to guarantee access to education as a priority and, on the other hand, to help to the best of its ability to contain the spread of coronavirus. For this reason, a number of steps have already been taken and protective measures have been established in schools for many months. We would like to thank each and every one of you for your understanding and cooperation in implementing these protective measures!

Schools remain dependent on your help when it comes to successfully overcoming this crisis. For this reason, we kindly ask you once again to observe the following points in the field of schooling:

- In the event of illness, pupils must stay at home.
- If you as a parent develop coronavirus symptoms yourself, please wait for the test result before sending your child back to school.

The school is doing everything in its power to constrain the spread of coronavirus. For this reason, additional measures have been taken to prevent classes at all levels from mixing. The aim is to reduce possible chains of infection and to safeguard contact tracing.

Of course, all of these constraints on “normal” school life are testing the patience of everyone involved, including pupils. However, the health of the general population, which also includes our pupils, is the overriding priority. We are doing all we can to maintain classroom teaching in schools, by observing the protective measures. Everything needs to be done to prevent school closures, such as happened in March 2020. This in order to ensure access to educational institutions in the compulsory school sector, to guarantee pupils’ learning and to continue providing families with the best possible support. To this end, we need the continued support of our parents and pupils when it comes to implementing the measures that have been established to combat this pandemic.

Stay healthy and keep taking care!

A handwritten signature in blue ink, appearing to read "A. Kind".

Arnold Kind, Director

Wash your hands thoroughly

Avoid shaking hands

Cough and sneeze into the crook of your elbow

Maintain social distancing

Wear face masks in public transport and in buildings that are open to the public
